*For the current COVID-19 County-Level of Community Transmission, see below*

**Critical Thinker:**
1. Identify the major categories of data presented in the document.
2. Summarize the key findings for the week ending October 30, 2021.
3. Analyze the trends in COVID-19 cases and deaths.
4. Discuss the implications of the data for public health strategies.

**Critical Literacy:**
- The document provides a snapshot of COVID-19 data for Yalobusha County, Mississippi, for the week ending October 30, 2021.
- It includes total cases, total deaths, and total incidence.
- The data shows a significant increase in cases around mid-October.
- The document also notes that there were no cases/patients associated with an outbreak during the week of 10/24-10/30.

**Critical Thinking:**
- Discuss the implications of the data for public health strategies.
- Analyze the factors that may have contributed to the increase in cases.
- Reflect on the role of community transmission in the spread of COVID-19.

**Critical Literacy:**
- The document provides a comprehensive overview of COVID-19 data, which is crucial for understanding the current situation and planning effective responses.
- The data can be used to inform public health policies and interventions.

**Critical Thinking:**
- Reflect on the importance of community transmission in the spread of COVID-19.
- Discuss the role of vaccination and other interventions in controlling the spread.
- Consider the implications for future public health efforts.
