**FREE**  
Screening  
Services

## Breast Cancer

Early detection is the best protection.

### Am I at Risk?

All of these can increase your risk of breast cancer:

- Risk increases with age
- Late or no pregnancy
- Starting menopause after age 55
- Family history
- Having dense breasts
- Taking oral contraceptives

### Some Signs and Symptoms:

- Lump, mass or swelling in the breast or underarm
- Changes in size or shape of the breast
- Breast pain

## Cervical Cancer

Cervical cancer is easily treated when it's detected early.

### Am I at Risk?

Your risk of cervical cancer can be increased by:

- Human Papillomavirus (HPV/STI)
- Multiple sexual partners
- Taking oral contraceptives for five years or more
- Multiple full-term pregnancies

### Some Signs and Symptoms:

- Abnormal bleeding
- Increased vaginal discharge
- Unexpected back and pelvic pain

## You are eligible if all of these apply to you:

- A woman 21-64 years old
- Uninsured or underinsured
- Household income at or below 250 percent of the federal poverty level
- No Medicare Part B or Medicaid
- Resident of the State of Mississippi

## What services are offered?

- Clinical breast exam
- Pelvic exam
- Pap test
- Screening mammograms
- Diagnostic procedures as indicated (Diagnostic mammograms, ultrasounds, colposcopies, breast and cervical biopsies)
- Patient navigation
